

The right mix of providers can make the difference

**Finding the right provider
anytime, anywhere.¹**

Freedom to see any provider

VSP Choice plans include a reimbursement schedule for services at out-of-network locations, including national and local retail chains.

When choosing a vision benefits plan, network can be important.

It's about more than just size; the plan should include the right mix of vision providers.

CHOICE

Employees can choose from one of the largest networks of ophthalmologists, optometrists, and opticians in the nation. Our network has more than 137,000² provider access points, including private and retail center locations like Costco® Optical, Sam's Club, Walmart and more.³
